Can be duplicated from stock in a few moments. These lenses are factory ground and are not always exactly like the broken ones. They are often inferior in finish and thus do the eye permanent injury. Opticians who do not do lens wrinding carry a stock of these lenses and fill prescriptions and duplicate lenses in a short time, often doing irreparable injury to the eyes. Every lens should be specially ground. I have the only machinery on which it is possible to do accurate lens grinding in this state. Thus I Make Glasses Right.

Values Give Away Abruptly and General Losses Are Recorded.

NOTE—All Market news on finis page reflects closing sale prices (unless buy or bid be specified) on Tuesday, January 14.

New York, N. Y. Jan. 14.—Bear traders, flushed with their successes in promoting extensive liquidation in the copper gorup, paid more attention to the general list today and were assisted in their efforts to depress prices by unfavorable news on European politics. The bears experienced no opposition in opening stocks lower. Selling was more active than for several weeks and a number of issues touched new low prices for the current decline.

cline.

After the first rush of selling orders had been executed the list began to respond to the support extended, and the Steel, Amalgamated, the Harrimans and other shares made full re-

coveries.

Bonds were easy.

Values gave away abruptly, Steel,
Union Pacific and Reading falling to
a level a point or more below the early
lowest. Losses in the active shares ran
from one to three points. Inactive
specialties simmed violently. General rom one to three points. Inactive specialties siumped violently. General Chemical gave way, 10, and American Tobacco 12 points. Ability of bears to raid prices almost at will discouraged buyers and compelled demands for further margins by commission houses.

Buying relaxed and the market fell off with some of the leaders reaching the lowest of the day. American Telephone rose over a point on the announcement of the rights of stockholders in connection with a new \$67,080,000 bond issue.

The market closed weak. About the only relief from liquidation was the temporary withholding of stock to enable the market to digest what had been unloaded. Among the low prices were Steel 6%. Unlon Pacific 135%, Amalgamated 70%, Reading 161%.
